**Wrongful Death (covid, celebrity deaths, self harm, P word, mass shooting's and RESPONSIBILITY
using me well off me making money off me having sex with Todd instead of me!!!)**

Causes for us (Who) "What" Killed my Dad: #scotus (wrongfully accused) Because u don't comprehend privacy. You didn't think #Trump messaged me. Blaming business card refusal for Kobe. You think self harm is by messenger. You think self harm signifies future. Didn't let me recover because self harm. Didn't respect my discussions caused it. You didn't respect suicide "giving up." You don't respect boundaries of mine. You're blaming forced photos as killing my Dad accusing me shocking my Dad. You accuse my #Twitter as speaking to the enemy because I requested cameras installed looked at later saw car accident not clear if it was the car that looked at me and my Dads car was totaled so Twitter (accusing me being attentive well in public & punish me as though don't meet caretaking person) so excuse another's upsets internally and if caused to me don't recognize I'm worse than some older upset w/ me. So you punished me wrongfully accused move of being provocative not loving or risk taking living at home didn't remember all my selfies & how many years it took to figure out & improve my look and appearance so you killed me too and shot me in the head as a schizophrenia joke. And running everyday accused me of being street then disrespectful for going out the accuse me of dating in this condition now not existing then and you expect me or my limits by declaring what hurts me to not be able so you in words sought to make things not happen to see if I would die not being allowed to love or be rejected. Then you watched all of #Ukraine and #Russia die because of a secret my Dad told my Grandma used to to hit her head a Professor at #NYU wrote a book in Yiddish wrote my name on copy given to me, accuse me holding a secret that was made to happen by anything last told to me before or upon occurring of something distressful didn't believe my sunset story or drawing so you ridiculed me or a babies name accuse me of being raped by a #Russian I described as small younger than me accuse me of being touched a carcinoma #cancer caused by "Micah" who you insulted the grossness of humor as though #MichaelJackson is still alive was Micah who raped me and #OJ was making fun of Micah or accuse me of preventing OJ in public attacking Michael Jackson (then when #LisaMariePresley died) you're accuse me of being a disappointment or weight loss or women's issues not reflected in my success or messages accuse me of deleting from care women by obesity the representation by my writing and figuring out hurt me take credit for my science I refuse to be ridiculed called those two words and I refuse to continue to save anything being used as a shields against mbe for anything close not allowme to go by myown instincts and stop using ms or my life to make other people look smartor seem stupid whilehurting & injuring me. Or make things look like I'm being told off and accuse me of saying words I'm not or relevant made as to me being harmed or accuse me of saying words hurtful (as though you I said this would hurt who shouted at me) then meveryone pretends they're gay and hurt me as hurtful and then don't recognize who I am with Todd cause deletion as anyone's right to review or loss the continued issue is not everyone who is well saved (Jew god belief insult hair cut issue retaliation take it) it's why am I not represented get an attorney and why is my waiting to date keep reinforcing who hurt me and accusing me ofbeing him toward me&that's hurtful. I won't stop explaining it until they stophurting me as a stupid smart man woman joke because

clearly you don't respect my concerns and think obesity represent a change that change caused death accusing me of being that changed is wrong 2 any 1 u caused me heart attack and death self harm and suicide be are you think wrongful death is a joke & no one takes responsibility for allowing who hurts me (finishing me off causing me death like that vindicates prevents losses) it doesn't solve them accused me of being hurtful.

Issues Relevant for Prevention

-Car accidents and internet broken on phone.

-What causes me head to be gone, or a car accident.

-Shouted at and getting into a car accident.

-Made fun of for shouted at and my head gone.

-Fighting me and losing punching my head.

-Misusing me as fighting illness or a condition not preventative too, so sacrificing my feelings, and blaming me for anything worse. Therefore its not why I didn't improve, its why I didn't stay improved and what car accidents am I being blamed for wrongfully accused of "vehicular manslaughter" is criticizing car accidents in my driveway accuse me of being wreckless or driving at a speed deadly (Ive only sped twice 100 mph), and accuse me of not recognizing what Ive done wrong by car accident, not by phone either time, and what is getting at me and whether I viewed anything Ive done wrong as getting at me, no never.

-Accuse me of paranoia, or people okay with something that Im not okay with uncomfortable with and to make everything a womens issue, sexuality, weight, pride, money, smart issue, and further discriminated me as a "me too" issue, about people hurting me in common to a lawsuit they are not a member to or a party to, and fighting me and wrongfully accusing me of giving them a hard time or connected to guilt.

-Wrongfully treated as gay, wrongfully observed after being called pervert, voices pleased by gay, while discriminating me a permitting others to treat me as a man hit me with a strength stronger than a normal human being can withstand, then accuse me of being someone who blindsides or changes on people, when I publish everything in public and discontinue messenger and chatting and texts for the rest of my life, emails when necessary, therefore dedicating 10 years to prevent voices, will require that much time alone, to prove or disprove whats my voice, and to prove disprove whether Im wrongfully being treated as people close to me who hate me expected to help or accuse me of not helping people who are offended by me and using me to create for content to permit others to attack me.

Causes for Killing Me: #scotus

Cocaine 2006.

A group photo had friends.

Friends with neighbors.

Going to outpatient rehab.

Forced to write outline biography.

Think I farted at graduation because I got up and left smell very foul.

Peed with my BFF & flirted peeing.

Making fun graduation photo & face.

Making fun of my face playing soccer.

Accuse me of obesity.

Fit and improved don't see role model.

"Take it like a man" how I'm treated.

If I think hurt by a woman I'm punished.

Seeing death as connected to me.

Not recognizing what prevents.

Mass shooters (sympathy) accuse me of not tackling issues negotiating daily. And accuse my blogs as not sufficient prevent a mass shooting away because blaming me for a freeway shooting on Chapman because my ex boyfriend went to Chapman and making fun of me as "gets off" suicide slammed head into wall (wrongful insight on cartoons made by me - Warner Brothers) is not hurtful to my Brother or them, making fun of my mental health and recordings over a 10 year period making fun of me as a politician and public speaker, accusing me of being gay or having sex as gay as though sex is defense to being called p forcing me to be comfortable with women as you're scaring me ridiculing me and accusing me of not being a role model not making others proud. So you didn't see me as a princess if by blog or stats and not dating not married (not possible or injured) on the basis of ... watching young people successful accuse me of watching or jealous or nostalgic misunderstanding what a head injury is and what pride or marching in defense of others is fought to create false issue "pedophilic pervert applied to my identity to kill me because of my worry made true because I wrote research papers and for all the hard work it takes in response to mass shootings accuse of not being empathetic or scientific or preventative and hurt me like I'm them and pretend like I'm scary of criminal while you support all riots marches and racism as humor however you fail to recognize why should I be hurt when you hurt me for those reasons means I'm being injured (as a what I'm not joke) who I am is not recognized (and writing is to change or reflect what two statements by two doctors "frustration" "too late" (attire) and latest dropped care by "too early" when prescribed 20 pills the other doctor called day early didn't send any meds to cvs by the 18th and appointment canceled not attended missed appointment phone was broken due to changing the sim password. Locked out and internet broken since January) accusing me of being a reject liking someone

good looking accuse obesity as not attractive and then call me and when I describe what is meant by calling me that accuse me of not being presentable proper well spoken. #worldpeace

Losing My Battle with Voices by Leslie Fischman (under oath the truth to prevent self harm suicide death mass shootings and fires and terrorism and bullying and sex crimes)

This book was written while battling voices, and not having in mind that the side against me is the side who doesn't want to take blame for harming me on Invega or be viewed as having harmed me or changed any odds, by my ability or lack of ability or change, is not what improving is for to prove which treatments were not beneficial or treat me as improving to complain about a difficult med, and to continue to revisit in what way humiliation was caused (they didn't respect my Taylor Swift argument) or my singing, and continued to move forward with treating me (as I described Todd) punish me as feeling good with, is my interpretation, recognizing what's wrong, is what can't be changed or what's too late. Would be a change in how one is treated is not a benefit to being known to have spoken to me or alleged to like me or love me underserved. Not recognizing that a blog was to become a better person and prettier and more successful so that I could marry and would be picked, because of what was believed to be an issue a mind to mind or eye to eye sought, is not in my personality to have those experiences in life or to wonder or feel threatened by anyone who thinks alike.

I intended to follow up, tired from hospital stay and all the news upon getting home.

I have work to do that prevents me from being treated hospitalized right now that's more important than therapy, I'm the meantime hired a psychotherapist for privacy right now and have too many problems to sit in group therapy.

Doing my best. My work is more important than treatment if treatment is affecting my freedoms and what people think of me I don't need to be made to look worse or don't belong in treatment when recovered made sick again at home by voices means hospital is to disconnect from hacking voices and bullying as needed.

Not feeling well need to stay home punching my head today made to shout given voices ridiculing me deleted all messenger texts to who I love, what's unclear is how listening to my body recording and in what way is my privacy violated accusing me of not being sick then not treated as a patient in real life and in what way am I prosecuted to punish me I humanely enable people to bully me not respect my condition.

Sincerely,

Leslie Fischman

Lost my battle with voices after being on a psychiatric hold which resulted in self harm and no writing or effort to prevent voices prevented or my documented improvement and stages or description of mental health didnt prevent voices as a result of my condition worsening deleting photos on google (not respected as proper or helpful) and deleted all my iphone notes and discontinue going through any stages of shouting on twitter or now in real life by voices and continue to delete until voices stop and then start over, why all my websites were taken down, until voices stop, which cant be prevented through writing, so taking geodone and sleep everyday (out of wellbutrin and prozac) and new DEDUCTION is two words are the cause of everything bad occurring, and hurting me results in a greater risk to the public when Im hurt or sick is an increased likelihood and not work or wellness, which was falsely determined and falsely blamed.

—

Hospitalized twice accuse me of a fire in Marina del Rey I didn't know about.

Ignore the two weeks after the hospital writing everyday to prevent voices.

No one cares shouted at 7 times I didn't make a big deal not hurt restate.

People don't comprehend how my head is hurt insulted treated a P.

I don't deserve that I love Todd I'm marrying him and loving him until the day I die and you can believe anything you want what's created wrong.

Accuse porn calling me gay treat me not admitting to something making me sick.

And don't call me P can't be prevented by love of any kind destroyed my love with Todd prevented love future.

Accuse my strength as against others.

Then covid fires mass shootings.

So went against me.

Caused more mass shootings fires.

So the solution is no one against anyone by any lawsuit entitle anyone to cause voices inflict pain suffering.

—

What's unclear no one's filed lawsuit prosecuted me for?

Disappointed 38 yrs of life accuse me of speaking in a way causes suicide.

Not treat me says things or people die accuse anyone giving up think is my fault.

Accuse me of a truth I don't see to say death is because someone doesn't see when things are good accuse me of being strong ruining peace or pleasantness.

Two words unclear what causes shooting homicide P word or hats or why I'm being accused of anyone else mental health issues accuse my identity as for trash waste or blame.

Responding turned into hurting me bullying me no one knows why over spring mass shootings occurred again.

Unclear whether hurting me or disability prevents a likelihood or decreases a likelihood.

You think speaking well is a choice mistreat expose me by aggravation to state why or what for accuse me of being wrong or should know why anyone has died accuse me as the human being alive accuse me of causing death ignore my suffering.

So what's not true is every positive interaction.

What's lost is my entire life is ruined.

What can't be stopped word P.

What's untrue is a word or sexuality change is causing me sickness fail to recognize obesity and my face ugly and weird videos as a symptom of not normal. What's wrong.

It's unclear why calling me schizophrenic is expected to prevent mass shootings and fires and unclear on whether me being hurt creates a greater likelihood or why?

And now I have to improve

Prevent mass shootings

Because it's clear "schizophrenia" word causes mass shootings many.

And the word "P" causes me to punch my head and suicide.

So what's suicide (body dies the heart dies the head hurts the body is in pain (words hurt) and then a person dies commits suicide because don't feel well).

So a mutual goal is fire prevention and hurtful words (voices accuse delusion pain and suffering) accuse me letting random things happen pretend to be normal no we can talk about it if it's not clear what mass shooting prevention is or what improvement wellness is for means (sickness hearing voices self harm suicide occurs after a mass shooting) and fire occurs because I'm suicidal called 911 forced to go to the ER.

So the solution for voices is to continue calling P cause more incidents of bullying (accuse me shouting as guilt create risk for harm to me or who want something bad to occur if I shout) why not just put me in jail if you keep calling me that? Why need a result? Since voices don't comprehend why head hurts body hurts (don't comprehend self harm or suicide) then discontinue reacting or cursing (I know now pretty well spoken able = voices and disability is desired result dysfunction) and this is supposed to prevent mass shootings and fires accuse me non acceptance and watch my head shrink body disfigured not self harming and that's to reinforce a belief that I'm the cause of mass shootings so if that's what you think stop changing me or bullying me simply file a lawsuit why I'm hacked bullied called that and explain that to a judge so I'm not being strategic law school doesn't matter simply put into words solves voices let's hope they don't continue to call me that.

Calling me "P" nude online you think caused a school shooting.

Accuse my pictures offensive to eyes.

Think my body or face causes a young man to shoot a school.

Accuse Texas police of negotiation your making fun of me accusing me of being ugly unimportant not special accuse me of being anyone a kid masturbated to accuse me of causing a school shooting.

You accuse me being a loser (because a mass shooter was a failure).

Then after many attempts to discuss how P hurts no diagnosis or medication can solve or cure how people are able to connect to my body hear them sober on meds thin or obese is not my fault.

Making me obese to say my photos caused a school shooting.

Accuse my reaction as cursing wrong.

And so hospitalized twice.

Getting voices after I got well.

Make me sick punch my head.

To accuse me of causing a mass shooting.

Think voices is instead of jail makes no sense file a lawsuit.

Then your destroying my relationship to Todd over a man I wasn't that close to or in love with or in need of any support.

Don't believe voices cause suicide.

Wrongfully accuse me drugs.

Because psychiatrist charged me \$700 can't get over not on meds punching my head figure out why Kobe died and blaming me or the psychiatrist.

Refusal discuss be hurt accuse me shouting to myself sick means I refuse to punch my head drink or commit suicide.

Two words two problems (Words: Pervert and Schizophrenia)

Problems: Mass Shootings, Naming the Offense "Sexuality" or Love or Wrongfully Accuse me of Flirting or Being Someone Guilty, Mistreat as Open Obvious Condition of Gay or Accuse my Upsets as Created by Voices Mistreat me as Guilty Doesn't Recognize what's wrong make fun of me flying to DC 2013, and think that anyone being weird toward me means anything is my fault or think that court is for randomly being somewhere to get better or hospital, and accuse me of "getting off" by DA. Or sex to themselves (cancer cat joke accuse me doing myself got cancer from my cat) is to embarrass the diagnosis of me (HPV) treated and to accuse me of blaming a woman for passing it a carrier, and then treating me as a host of Schizophrenia and letting mass shooters call themselves schizophrenic and wrongfully accuse me a successful blogger, or not being a successful negotiator over a 10 year period, and suddenly cause suffering to me, to blame being in the hospital for a mass shooting, and blame me as "location" a mass shooting occurs, mistreat me as ambulance chaser someone who is strong upon loss or war and not someone who works hard and prevents, that's making fun of my emergencies or FEMA membership and further more research papers (voices and excuses are interchangeable and so is suicide and self-harm interchangeable harms that result from one another that there's no solution for).

I spent more than a month after the hospital responding to voices and insults and describing how hurtful no statements or explanations prevented voices, and the continued pushing now with a heart condition an elevated heart rate at risk for heart attack and stroke is not the ER "suicide" they attacked me for as giving up when I was writing straight for a month, and could not stop voices, means voices are hurting me because of death or suicide or mass shooting, and blaming me, therefore don't see prevention as through me, and don't respect who supports me.

Deletion occurs after punching my head 3 times suicidal means to discontinue wasting time discussion of P if what THEY WANT ME TO SAY IS A FAN SITE WAS BELIEVED BY A THERAPIST WHO IN ADDITION SELECTED A PSYCHIATRIST TO MAKE FUN OF ME AS SOMEONE WHO TEACHES SEX OR MASTURBATION AS A GUEST OF NEVERLAND ACCUSE ME OF HAVING SEX WITH YOUNGER PEOPLE AND NOT RESPECTING THAT I CAN'T FEEL SEX SINCE SURGERY AND CANCER AND DON'T HAVE SEX ANYMORE, AND CAN'T GET OVER WHY I WAS HOSPITALIZED TWICE FOR DATING BARTON, I DIDN'T BREAK A UCLA RULE IN AA, WHEN HE WAS DOING BETTER THAN ME AND LEFT THE MEETING "HIS MEETING" OUT OF COURTESY TO HIM OFFERED TO DATE ME AFTER I GOT HOME FROM THE HOSPITAL AND LOVED ME.

So the issue is permissions being used, whether that's for punishment or guilt, so its taking away my ability to be apart of, and pushing me down in life, based on what has gone wrong blame me, or try to send me to jail or determine my future for me on the basis of "attitude" and liekability, so my courtesy and reocgt

Conflict two words unclear cause if mass shootings sickness guilt jail or suicide what's deserved who's wrong what does death prove I'm not responsible worse off is if anyone dies mass shooting or fire blame me here forward

Responding turned into hurting me bullying me no one knows why over spring mass shootings occurred again.

Unclear whether hurting me or disability prevents a likelihood or decreases a likelihood.

You think speaking well is a choice mistreat expose me by aggravation to state why or what for accuse me of being wrong or should know why anyone has died accuse me as the human being alive accuse me of causing death ignore my suffering.

So what's not true is every positive interaction.

What's lost is my entire life is ruined.

What can't be stopped word P.

What's untrue is a word or sexuality change is causing me sickness fail to recognize obesity and my face ugly and weird videos as a symptom of not normal. What's wrong.

It's unclear why calling me schizophrenic is expected to prevent mass shootings and fires and unclear on whether me being hurt creates a greater likelihood or why?

Sirius radio Soul Cycle @eminem

I'm very respectful worked everyday ran everyday during covid riots and marches!

I pitched to @WhiteHouse no one cares about Barack or @POTUS or the last 10 years.

And now I have to improve

Prevent mass shootings

Because it's clear "schizophrenia" word causes mass shootings many.

And the word "P" causes me to punch my head and suicide.

So what's suicide (body dies the heart dies the head hurts the body is in pain (words hurt) and then a person dies commits suicide because don't feel well).

Called me schizophrenic

And a there were many mass shootings.O

What's the solution and why.

Public information dilemma. Of concern.

Hospitalized twice accuse me of a fire in Marina del Rey I didn't know about.

Ignore the two weeks after the hospital writing everyday to prevent voices.

No one cares shouted at 7 times I didn't make a big deal not hurt restate.

People don't comprehend how my head is hurt insulted treated a P.

I don't deserve that I love Todd I'm marrying him and loving him until the day I die and you can believe anything you want what's created wrong.

Accuse porn calling me gay treat me not admitting to something making me sick.

And don't call me P can't be prevented by love of any kind destroyed my love with Todd prevented love future.

Accuse my strength as against others.

Then covid fires mass shootings.

So went against me.

Caused more mass shootings fires.

So the solution is no one against anyone by any lawsuit entitle anyone to cause voices inflict pain suffering.

Cursing is to say my attitude caused death like people left.

So me cursing if anyone dies in the news will accuse my attitude causing death.

What's unclear no one's filed lawsuit prosecuted me for?

Disappointed 38 yrs of life accuse me of speaking in a way causes suicide.

Not treat me says things or people die accuse anyone giving up think is my fault.

Accuse me of a truth I don't see to say death is because someone doesn't see when things are good accuse me of being strong ruining peace or pleasantness.

Two words unclear what causes shooting homicide P word or hats or why I'm being accused of anyone else mental health issues accuse my identity as for trash waste or blame.
